

INSTRUCTIONS FOR DOWNING THE NOVELL FILE SERVER

From the File Server's Keyboard and Monitor:

Proceed to the example screen which looks like this:

Wednesday January 1, 2006 7:35am

SERVER: type} DOWN

The following message will appear:

Notifying stations that file server is down

Server has been shut down.

Type EXIT to return to DOS <Note: Do not type EXIT, instead power off the server

If you see the following box instead of above:

Novell Netware Print Server Server PSERV Running			
0: LPT1 Waiting for Job		4: Not Installed	
1: LPT2 Waiting for Job		5: Not Installed	
2: LPT3 Waiting for Job		6: Not Installed	
3: Not Installed		7: Not Installed	

Press ALT-Esc to Exit this Menu or any other Menu back to the SERVER: prompt
