

DOWNLOAD INSTRUCTIONS for Signature Series Programs

The following instructions allow for Email Downloading of Updates and Patches

Using your email web browser:

Find the desired file to download

Double Click

When asked to Save or Open, choose **SAVE**

Your browser should ask where to save the file

From the drop-down window select:

C:\DBS for single user systems

F:\DBS for networked systems

After saving the file, close out of your browser

If the file is a ZIP type, (where the file extension is .ZIP) then proceed with the following instructions otherwise the download is now complete.

UNZIP DOWNLOADED FILES:

From a Signature Series workstation, proceed to the Secondary Menu

Select **Z** for utilities

Choose #5 **Unzip Recent Downloaded Files**

Enter the file name (example): **UPDATE** (Note: Do not enter the .ZIP extension)

The program will automatically inflate all files to usable condition

The download is now complete...
